### **Stitched and Pinked**

The stitched and pinked seam finish will improve the durability and help prevent raveling of the regular pinked seam.

- 1- With 2- 4" by 8" pieces of fabric pinned together, stitch a regular 5/8" seam.
- 2- Stitch 1/4" from the edge of each side of the seam allowances. (Do not sew through to the outside of the fabric.)
- 3- Pink the seam allowance.
- 4- Press the seam open.
